

Ghost in the machine

You have made a bargain for power granted by an entity that you believe to be completely digital. Whether it is a rogue AI or the spirit of a deceased hacker, the Ghost in the Machine is capable of feats that defy explanation.

Expanded Spell List

The Ghost in the Machine lets you choose from an expanded list of spells when you learn a warlock spell. You gain the on/off cantrip, and the following new spells are added to the warlock spell list for you. See the “New Spells” chapter.

Ghost in the Machine Expanded Spells

Spell Level Spells

1st infallible relay, remote access

2nd arcane hacking, digital phantom

3rd haywire, machine invisibility

4th conjure knowbot, system backdoor

5th shutdown, synchronicity

Bonus Proficiency

At 1st level, you gain proficiency with hacking tools.

Information Surge

At 1st level, you gain the ability to temporarily render computerized devices

inoperable. As an action, you can target a computerized device within 30 feet of you. If the targeted device is held or otherwise actively used by a living creature, that creature must make an Intelligence saving throw against your spell save DC. On a failed save, the targeted device ceases to function until the end of your next turn. If the targeted device is not held or used by a creature, the GM makes a special saving throw for the device with disadvantage and a +0 modifier. Certain shielded devices might negate the disadvantage, at the GM's determination. Once you use this feature, you can't use it again until you finish a short or long rest.

Wire Travel

Starting at 6th level, you gain the ability to travel short distances over electrical wires, data lines, or telephone cables. As a bonus action, you can touch a device or socket connected to a hardwired network and teleport along this network to another device or socket within your line of sight. Once you use this feature, you can't use it again until you finish a short or long rest.

Personal Encryption

Beginning at 10th level, you have learned to apply your innate knowledge of encryption to your thoughts, memories, and presence. You have advantage on saving throws against scrying, thought detection, or any other method of magically learning your whereabouts or reading your thoughts. For any such effect that does not grant you a saving throw but which requires the creature

targeting you to make an ability check, the check is made with disadvantage.

Developed by Tiago Cristiano [kristianotiago@gmail.com] 17

Technovirus

At 14th level, you gain the ability to infect a humanoid's body with living circuitry. You can use an action to make a melee attack against a humanoid creature using your spell attack modifier. The target must make a Constitution saving throw against your spell save DC as a techno-organic virus quickly spreads through its body. On a failed save, the target takes 8d10 psychic damage, or half as much damage on a successful one.

Additionally, if the target fails the saving throw, you can use an action to issue it a single command, as if you were casting the command spell. The target makes its saving throw against your command with disadvantage. You can issue this command at any time while the target remains infected.

Once you use this feature, you can't use it again until you finish a long rest, at which point the target is cured of the technovirus.

The infection can also be removed with a lesser restoration spell.
